

# Important Information About Your Drinking Water

## Zanesville, Help Us Get the Lead Out!

The **City of Zanesville** is taking action to replace lead and galvanized requiring replacement drinking water service lines in our community. We will be in your neighborhood from **February 3<sup>rd</sup> to February 5<sup>th</sup>**, to perform a **5-minute inspection** of unknown service line materials. **If you would prefer to skip the visit**, you can complete and submit our online survey identifying your water service line material today!

### How You Can Join Our Efforts:

- **Inspect-Your-Own Line:** Scan the **QR code** below to complete the online service line material survey and submit your results.
- **Let the City Inspect Your Line:** Call **(740) 617-4953** or **email [watermetering@coz.org](mailto:watermetering@coz.org)** to schedule an appointment for a utility representative to conduct a **5-minute inspection** of your water service line.
